Objective

Cybersecurity enthusiast with hands-on experience in ethical hacking, including VAPT on live production environments and threat research at Oil & Natural Gas Corporation (ONGC). Demonstrated leadership as Team Lead at Defenders Connect, organizing nationwide cybersecurity events and fostering technical collaboration. Skilled in offensive security techniques, red teaming, and system analysis. Achieved 6th place in the CyberForHer Hackathon by Data Security Council of India and committed to strengthening digital infrastructure through practical, impactful security solutions.

Education

B.Tech- M.Tech Computer Science(Specialization in Cybersecurity) *August 2022- Present*
National Forensic Sciences University-Delhi

- GPA: 8.25/10
- **Coursework:** Web Development,Network Security, Digital Forensics, Web Application Security

10th and 12th *April 2022*
Brightlands School

- Percentage in 10th- 93.25
- Percentage in 12th- 89.25

Skills

Technical Skills: Vulnerability Assessment and Penetration Testing (VAPT), Ethical Hacking, Cybersecurity Analysis, SIEM, Malware Analysis, Reverse Engineering, Bash Scripting, Incident Response, Log Analysis, Image-Based Threat Detection, Cyber Deception.

Tools and Technologies: Nmap, Nikto, Hydra, Medusa, Metasploit Framework (msfconsole), LinPEAS, WinPEAS, John the Ripper, GoPhish, theHarvester, Binary Ninja, Apktool, Wireshark, Mimikatz, Msfvenom, Burp Suite, Netcat, Msfconsole, MFramework.

Operating Systems: Kali Linux, Windows, VirtualBox

Programming and Scripting Languages: Python, C, C++, C#, Java, SQL, HTML, CSS, Bash

Soft Skills: Leadership, Communication, Team Collaboration, Critical Thinking, Project Management, Organizational Skills, Problem Solving

Certifications

- Google IT Automation with Python — Google *Jul 2023 – Aug 2023*
- Google Cybersecurity Certificate — Google *Aug 2023 – Sep 2023*
- C (Basic) — HackerRank *Apr 2024*
- Java (Basic) — HackerRank *Apr 2024*
- Software Engineer Role Assessment — HackerRank *Apr 2024*
- SQL (Advanced) — HackerRank *Apr 2024*
- Cybersecurity for Blockchain from Ground Up — EC-Council *Aug 2024 – Oct 2024*
- Cyber Deception Demystified — EC-Council *Feb 2024*
- Complete Bash Shell Scripting — EC-Council *Feb 2025*

- Pentesting Fundamentals for Beginners — EC-Council *May 2025*
- Security Information and Event Management (SIEM) — EC-Council *May 2025*

Experience

Cyber Security Intern *Dehradun, IN*
Oil and Natural Gas Corporation *May 2025 – July 2025*

- Performed vulnerability assessments using tools like Nmap, Nikto, and Hydra to identify potential network and service-level risks.
- Executed password-cracking simulations with Medusa and Hydra, targeting exposed services to assess credential security.
- Conducted vulnerability assessment and penetration testing (VAPT) on a live production website to evaluate real-world security posture.
- Initiated a malware analysis project focused on image-based detection techniques to improve threat intelligence.

Chief Technology Officer *Delhi, IN*
Cybethix *March 2025 – July 2025*

- Conducted routine system scans to detect vulnerabilities, malware, and signs of unauthorized access.
- Provided support to users for resolving cybersecurity-related issues and implementing secure practices.
- Assisted in monitoring network traffic and analyzing logs to identify potential threats or anomalies.

AI/ML Head *Delhi, IN*
Google Developer Groups on Campus (GDGoC) *Sept 2025 – Present*

- Spearheading AI/ML initiatives by mentoring students on machine learning and security-driven applications.
- Designed and led technical workshops integrating AI/ML with cybersecurity problem statements.
- Coordinated cross-chapter collaborations to develop innovative AI-based solutions for real-world challenges.
- Promoted project-based learning and guided members on research opportunities in AI/ML.

Team Lead *Delhi, IN*
Defenders Connect *Feb 2025 – July 2025*

- Led a student-driven cybersecurity community organizing nationwide capture-the-flag events and awareness campaigns.
- Managed cross-functional teams for event planning, sponsor outreach, and logistics for technical workshops and competitions.
- Oversaw a successful VAPT on the community's production website to strengthen real-time defense posture.
- Facilitated collaboration among volunteers and security professionals to create engaging learning experiences for beginners.

NSS President *Delhi, IN*
National Forensic Sciences University, Delhi Campus *Nov 2022 – Present*

- Spearheaded multiple social outreach initiatives that included clothes donation drives, blood donation camps, and awareness rallies.
- Led a team of 100+ volunteers in organizing university-level events such as Unity Day, Constitution Day, and Nukkad Natak performances.
- Maintained coordination with university authorities and external organizations to execute impactful community service activities.
- Promote civic engagement and social responsibility among students through consistent volunteering opportunities and workshops.

Executive Member *Delhi, IN*
Fayol- Management Society *Feb 2023 – Feb 2024*

- Contributed to organizational management and execution of departmental technical and cultural events.
- Supported event planning, logistics, and smooth coordination between faculty, students, and external stake-

holders.

- Assisted in managing student participation and engagement for seminars, workshops, and competitions.
- Strengthened teamwork and collaboration skills through active involvement in large-scale events.

Projects

SecureAudit Pro- Automated VAPT Platform *2025 — Personal Project*

- Engineered a full-fledged vulnerability assessment and penetration testing (VAPT) platform with multi-mode scanning for web, network, SSL, and directories.
- Integrated tools and techniques: Nmap, custom XSS/SQLi fuzzers, HTTP header analyzers, SSL/TLS scanners, and brute-force modules.
- Developed modular Flask backend with React + Tailwind frontend, featuring live logging, dashboards, and CVSS-based vulnerability reports in HTML/JSON.
- Built REST APIs to enable CI/CD pipeline integration, designed for DevSecOps workflows and scalable future tool integrations (Nikto, Sublist3r, OWASP ZAP, Burp).
- Dockerized for cross-platform deployment, supporting secure isolated environments for continuous automated security testing.

Vulnerability Assessment of defendersconnect.com *2025 — Personal Project — Team Lead, Defenders Connect*

- Conducted a comprehensive Vulnerability Assessment and Penetration Testing (VAPT) on the live domain defendersconnect.com
- Utilized tools such as Nmap, Nikto, theHarvester, Metasploit Framework, and manual inspection to uncover security loopholes
- Documented vulnerabilities across recon, scanning, enumeration, and exploitation phases, with corresponding remediation suggestions

Algorithmic Trading Bot with Python *2024 — Personal Project*

- Developed an automated trading bot using Python, incorporating historical stock data and technical indicators like SMA/EMA
- Integrated with dummy trading APIs to simulate and test real-time decision-making and order placements

Achievements

- Secured 6th rank in Phase 2 of DSCI CyberForHer Hackathon among 200 selected teams.
- Successfully organized a nationwide cybersecurity event at National Forensic Sciences University, Delhi Campus as core student lead.
- Selected as Student Placement Coordinator for campus recruitment activities.
- Selected in the college girls' badminton team.
- Completed multiple HackerRank certifications in Java, C#, SQL, and Software Engineering.

Volunteer Work

- Selected as President of National Service Scheme (NSS), NFSU Delhi Campus — leading major student-led social initiatives.
- Actively contributed as a core member of organizing committees for major college events, including technical workshops, cultural fests, competitions, hackathons and sports meets.
- Organized and executed a week-long Clothes Donation Drive with collection points at Main Gate, Back Gate, and Students' Lounge.
- Participated in a Nukkad Natak performance at Basti to address social issues and engage with underprivileged communities.
- Led a community outreach program in collaboration with Gyan Adhar Welfare Society, focusing on hygiene,

warmth, and resource distribution in slum areas.

- Actively involved in NSS-led national campaign participation, including Swachhata Pakhwada and Ek Bharat Shreshtha Bharat initiatives.
